The First Construction Project is Underway

By Ray Castillo, Controls Manager

The GC Procurement is actively progressing and we are pleased that we now have our first General Contractor under contract for the CIP. MDI, Inc. was selected as the General Contractor for Bid Package 009. This project contains renovations to David K. Sellars Elementary School, Glen Park Elementary School, and Harlean Beal Elementary School. The Architect for this project is CMA Architecture. Construction mobilization began in late March.

The first contract is signed. Pictured are Brian Crawford, Randall Hubbard, Walter Dansby and Kristabel Lopez.

Some of the improvements to the school will include interior renovations, upgrades to the existing life safety systems and security systems and technology improvements. This programs priorities include safety & security, critical building systems, I improvement of the existing learning environment, equity in the classroom, and sustainable design.

Featured School of the Month

By Makala Deneffeld, Purchasing/ Outreach Coordinator

Each month AECOM has elected to feature one school within Fort Worth ISD. The school's information and artwork from the students will be displayed in the main hallway of the Capital Improvement Program office. We realize that our job as Program Manager is to keep the bond program progressing smoothly, but we also enjoy the daily reminder of why we do what we do- the children. The faculty and students of Fort Worth ISD are a vital part of this community and have helped to make this one of the premier school districts in the state. Please stop by the Capital Improvement Office to enjoy wonderful expressions by students through art.

This April we will feature Glen Park Elementary School where the principal is Dr. Cassandra Morris-Surles. Glen Park was nominated by AECOM Project Manager Brian Crawford.

Construction Bid Preview for Phases 1 & 2 of the Capital Improvement Program was held on February 19th at Wilkerson-Greines Activity Center.

Team Member Spotlight: CARCON

By Makala Deneffeld, Purchasing/ Outreach Coordinator

CARCON Industries is a Dallas based woman-owned full service general contracting company specializing in commercial, industrial and institutional construction projects. Arcilia Acosta, President and CEO of CARCON has been in and around the construction industry most of her life. Her father was the founder of Carrasco Construction, which she reincorporated in 2000 and formed CARCON Industries. CARCON is currently working on several large projects in the Dallas/ Fort Worth area in addition to being a part of the AECOM team on this bond program. Some of their other work has been with Dallas ISD, Dallas County Community College District and Dallas Area Rapid Transit, to name a few.

AECOM is proud to have CARCON Industries as one of our partners on the Fort Worth ISD 2007 Capital Improvement
