

PARENT A GLANCE

Find out what your child is **learning** and how to **help**.

Subject	9th Grade				
Ideas students are learning	Students will learn in depth about nutrition and the human body, drugs and their impact.				
Skills	Students will know how nutrition impacts quality of life, and what the causes, symptoms, and treatments are of eating disorders.				
Work and assignments to look for	Reading from the textbook and/or work on selecting research paper topic.				
Questions Parents Can Ask	Have you completed the rough draft of your research paper?				
Special Notes	All students in high school health are to do a short research paper/project on a topic related to their curriculum.
