

SUBJECT	Art 1	Art Drawing	2-D	3-D	
Ideas students are learning	The student will develop an understanding of three-dimensional art using the Elements of Art and the Principles of Design.	The student will begin analyzing art works from the past and present to enhance the quality of their drawings.	The student will work on their individual portfolios adding new media and advanced techniques.	Students will use the Elements of Art and the Principles of Design in three-dimensional art works. Students will be submitting digital images of their concentration.	
Skills	Students will develop higher level thinking skills demonstrated in a well organized three dimensional original art work.	Students will self critique, make informed evaluations and use professional vocabulary to defend their decisions.	Students will self critique, make informed evaluations and push their level of creativity for quality art work.	Students will develop the skills to organize their art works and make decisions to submit their art works in various art competitions.	
Work and assignments to look for	Student will be developing a refined ability to apply the Elements of Art and the Principles of Design in their own 3-D art works.	Student will be working on individualized drawing various Elements of Art and Principles of Design	Your child will be working on individualized art work developed for their Advanced Placement 2-D Portfolio.	Students will have sketchbooks and large works to show you. They also will have digital images of the work being submitted for Advanced Placement.	
Questions Parents Can Ask	What materials did you use to create your three dimensional piece? What process did you use? Why did you select the subject matter?	What works did you study? Why did you choose that artist? What has influenced your drawing? Are you happy with the progress you are making?	What different media are you using in your art work? What is your concentration? What gave you the idea for your series of works of art?	What is your concentration? What media have you used in your 3-D work? Why did you select a specific material for your art work?	
Special Notes	Art is specialized and open ended. The program allows the art specialist to select different media and will include a variety of projects.	Art is specialized and open ended.
