

SUBJECT	Art 6th	Art 7th	Art 8th		
Ideas students are learning	The student will be applying skills learned about printmaking.	The student will be applying skills learned using the Elements of Art and Principles of Design to analyze, interpret and compare art works from contemporary and past artists.	Students will have an increased awareness and refined ability to apply the Elements of Art effectively in their own created works.		
Skills	Students will gain knowledge of description, analysis, interpretation and evaluation about print media..	Students will gain knowledge of how art works are created and who created them and why they are considered great art works.	Students will use new vocabulary focusing on personal expression in portraits and self-portraits.		
Work and assignments to look for	Students will use appropriate vocabulary and develop art work that uses the Elements of Art and the Principles of Design related and print media.	Students will use appropriate vocabulary and develop an understanding of the Elements Art and Principles of Design used in art works.	Art works related to portraits, self-portraits. Writings about some well known artists and their art works. Personal reflections on students own works.		
Questions Parents Can Ask	What terms do you use to describe a print? How do you use the Elements of Art and Principles of Design to create a print?	Why do artists create art works? What makes an original work great? How would you describe an art work?	What artist did you like the best? Who did you try to emulate in your own works? What materials did you use to create your portraits?		
Special Notes	Art is specialized and open ended. The program allows the art specialist to select different media and will include a variety of projects.	Art is specialized and open ended.
