

## Virtual Learning Support (Pre-K-12 Parents and Students)

Virtual learning support for parents and students will explore best practices, instructional delivery applications, curriculum and instructional resources, district technology supports, and communication methods.

The virtual learning support for parents and students is offered as a website. The website categories correspond with the district's Guidance and Support for Virtual Instruction documents. The website contains video tutorials and reference documents about the practices and tools students will use for virtual learning. Additional resources will be added as needed to support virtual learning in Fort Worth ISD.

### How to Access the Resources

The virtual learning support website will be available August 5, 2020. Please access the website content at <https://www.fwisd.org/Page/24263>.
