

Why do we need your ID?

While you can use any [acceptable](#) form of identification for your I-9, you will be required to have a state ID or Driver's License, from any state in the U.S., for your background check to be uploaded to the state. If you do not have one, please go to your local DPS office to apply for an ID prior to completing your Criminal Record Check form, as it will be rejected without a valid ID number.
