

Together, We Can Save Lives!

In this time of need, we are expanding our ISD partnerships to better serve their families and do our part to **flatten the curve** and prevent unnecessary spread. **#VirtuallyStopTheSpread**

Testing & Screening

We have the capability to screen **children and adults for COVID-19**. When our physicians deem necessary we can facilitate COVID-19 testing

Affordable

We've reduced our self-pay rate to **\$50**.

Wait Times

We are bringing our doctors into your homes with wait times **under 2 minutes**.

Now Treating Adults

We have expanded our program to include **care for all ages** to fight this crisis. Adults just need to visit **virtualcarefamilies.com** to request a telemedicine visit.

Medicaid

Medicaid families receive **FREE** care.

At-Home

We've extended our in school telemedicine solution to an at-home solution. Families can be treated from their home using any **smart phone, tablet, or computer**, eliminating further risk of exposure to COVID-19.

Co-Pays

We've **waived all co-pays** for families seeking care.
