

Save The Date: FWISD MS & HS Laptop Information

FWISD Educational Chromebooks for High School and Middle School Students. Middle School Students will receive their laptops the first week of school.

What is DiG iN and What Can It Do For Students?

The 2016-2017 school year welcomes another round of implementation of the Fort Worth ISD's 1:1 digital initiative: DiG iN. At the heart of the initiative is the idea: one device for every student. With DiG iN, all students are equipped with access to information and the best learning tools modern technology has to offer. This initiative goes well beyond simply handing devices to students - it's about preparing Fort Worth ISD students to succeed in the 21st century, compete globally and be responsible, informed digital citizens. It is imperative for the success of FWISD, Fort Worth and beyond that we educate our students to become digitally literate, critical thinkers and problem solvers, able to engage the world around them through clear, effective communication.
