

Texas Academy of Biomedical Sciences –10th Grade Level PLC Agenda

Nov. 12, 2019

1. Brags

- No workplace accidents in 41 days.
- Art and History; and Art and Physics both doing cross-curricular projects
- Blythe has made good progress on the individual conferences.
- Wednesday Lunch Academic Advancement with Dr. Smith and senior tutors working with struggling students went well last week and will continue. Kids will cycle on and off as needed.

2. Student Concerns

- Report cards go out this week.
- Possible bullying scenario between a group of students. Administration is following up and addressing the situation.
- Student conferences to get to know students better on a personal, individual level with goal-setting and relationship building. Schedule some time during Advisory to share this duty with the House Parent. Can use the goalsetting form with this.
- Student A – check in to gauge progress according to the Behavior Intervention Plan. Some progress in one class, but not sure how serious she is taking the plan in other classes. Still refused to do work in one class, even during some time in ISS. Continue to remind student that she should be adhering to her plan. Advisory teacher can follow up too.
- Students B and C – absent a lot. Need to follow up to figure out how teachers can address the issue and help get her caught up.

3. Support of grade and grade level sponsors

- Signed form for Wesleyan field trip on Friday Nov. 22.
- Crawford and Blythe organizing field trip to Kimbell Museum on Jan. 9; Sophomore teachers and parents needed as chaperones. Working out the details for the student expectations and museum logistics.

4. Important dates and events (including curriculum/projects/major tests)

- Nov. 22 is filed trip to Wesleyan; Henson coming with; last day before Thanksgiving break.
- EOC retest Dec. 10-12.
