

Bridge Programs Curricula 2019 - 2020

Upward Bound (UB) Summer Camp

TBA

Location: Texas Wesleyan University

Our ECHS program has partnered with the Trio Upward Bound program to provide yet another academic support structure for our students. We make Upward Bound apart of our enrollment process during the POC (Programs of Choice) registration night to give all

ECHS students the opportunity to join. UB's summer component provided the students with enrichment courses of their scheduled upcoming Fall classes to identify their areas of weakness and where they'll need the most academic support for the upcoming school year. In addition, our students are enrolled in TSI prep courses.

Upward bound combine two approaches to student contact: (1) a summer program where high school students take college prep classes and earn work experience at a college campus for six weeks. (2) Weekly follow-ups and afterschool tutoring (Mon. – Thurs.) with students during the academic school year.

TSI Summer Enrichment Camp

TBA

Location: Texas Wesleyan University

This program's curriculum mirror the Upward Bound Summer Enrichment Camp's curriculum. We created this camp to service the needs of the students who did not join

Upward Bound. We wanted to ensure all students receive the preparation and enrichment needed to be successful on the TSI. Our students took the TSI test at the end of this enrichment camp.

TSI Follow-Up Camp

TBA

Location: Dunbar High School

The intent of this program's curricula is to provide additional support to those students who were unsuccessful on the TSI test administered during UB and TSI Summer Enrichment Camps (previous camps mentioned above). This particular camp ran concurrent with the ECHS Summer Bridge Camp.

ECHS Summer Bridge Camp

TBA

Location: Dunbar High School

All first year Early College High School students are required to attend ECHS Summer Bridge Camp. This will be a week-long camp that provides academic and social support as our scholars transition from Middle School to the Early College High School Program.

Students will participate in a wide range of activities designed to equip them with the fundamental tools needed to be successful during their first year of the ECHS Program.

Parents are required to attend mandatory parenting sessions scheduled at Dunbar High School on the final day of ECHS Summer Bridge.
