AVIATION

AVIATION & DRONE ENGINEERING

Dreams of a career in the aviation industry will soar in this program! Students will prepare for higher education and high-paying jobs in the Fort Worth/Dallas area and across the nation through hands-on aviation projects and industry-based curriculum.

- Students take the controls of commercial level Small Unmanned Aircraft Systems (SUAS) to earn FAA part 107 certification. Students learn the diagnostics and repair of big engines in a state-of-the-art aviation lab and hangar.
- Partnerships with AIM, Bell Helcopter, Lockheed Martin and Tarrant County College allow students to explore aviation and aerospace careers and the science, technology, engineering and math (STEM) components that go with them.
- Students can earn college credit through Dual Credit courses and earn hours toward industry-related certifications as they learn the fundamentals of flight, weather, space travel and flight planning.
- This program includes opportunities for internships with Bell Helicopter and Lockheed Martin.

P.L. Dunbar High School Programs of Choice OPEN HOUSE Tuesday, November 12, 2019 | 6 – 7:30 p.m.

COLLEGIATE ACADEMY

COLLEGIATE ACADEMY AT P. L. DUNBAR HIGH SCHOOL

The goal of the Collegiate Academy is for students to graduate with up to 60 hours of transferable college credit. Tuition and all associated academic fees are free – saving families thousands of dollars in college costs.

Collegiate Academies will target all students entering the ninth grade. Priority will be given to students from traditionally underrepresented student groups as identified by the Texas Education Agency Early College High School Blueprint – Benchmark 1.

- 9th and 10th grade students will take college courses on the Dunbar High School campus. Juniors and seniors will take some courses on a higher education campus (currently Texas Wesleyan University).
- Students will have the opportunity to earn up to 60 college credit hours.

AUTOMOTIVE

AUTOMOTIVE TECHNOLOGY

Offers opportunities for students to work with the latest technology in automotive industry. Provides industry and work-based learning preparation. Opportunities and safety instruction on handling automotive tools and equipment ending in S/P2 certification. Hands on experience in diagnosing and repairing automotive problems and instruction on theory and practice to help students pass industry standard ASE (Automotive Service Excellence) exams.

COSMETOLOGY

COSMETOLOGY/COSMETOLOGISTS

Cosmetology offers hands-on training in cutting, color, texture, styling hair, skin and nails and so much more. Juniors and seniors prepare to obtain their license from the Texas Department of License and Regulation after completing 1,000 clock hours and passing their written and practical exams.

PTECH

PATHWAYS IN TECHNOLOGY EARLY COLLEGE HIGH SCHOOL

Students have the opportunity to earn an associate degree tuition free. PTECH Collegiate Academies provide work-based learning experiences at every grade level by establishing agreements with industry partners. Through internships and apprenticeships, students may earn credentials such as licenses and certificates aligned to their chosen pathway.

Opportunities available to students participating the PTECH Collegiate Academy:

1. Students will learn employment and career expectations through relationships forged with industry partners.
2. College hours, industry certifications and licenses.
