Scholars will have two options each day to participate in synchronous instruction, as well as participate in asynchronous instruction via each teachers Google site. The addition of the "C" day will ensure each teacher can engage every student in all classes, while maintaining the consistency of the A/B rotation. Teachers will be live and in person (synchronous) for each of their classes twice a day on "A/B" days, while being live only once for each class of "C" days.

Teachers will have "Office Hours" every day for students to receive assistance where needed.
