PROCESS

1. Application

   Volunteer should complete an online volunteer application that contains a background check authorization.

   The link to the online volunteer application is: https://volunteer.fwisd.org
   This link is also available at the FWISD website: click on Parent, click on Volunteer.

2. Background Check

   - After volunteer application is completed and submitted, it automatically transfers to the database of the Office of Professional Standards for a background check.
   - An email will be sent informing the volunteer applicant whether or not her/his background check cleared.

     > If the background check does not clear, the applicant will be directed to call the Office of Professional Standards for further information.

     > If the background check clears, the system will automatically create a profile in the volunteer database of the school(s). Volunteer can then call the school for current volunteer positions and to learn any other requirements necessary to start.

3. Orientation

   Orientations may be done in person or online. The District will work with individuals and Volunteer Coordinators to make this requirement convenient.

4. Placement

   School volunteer coordinators conduct placement. Approved volunteers will be required to present a current photo identification issued by any US Government agency at the school(s), the first time they volunteer. Main office will verify information provided in application.

   Volunteers must sign-in and sign-out every time they are on campus. The main office will assist volunteers with this procedure.
