

Quick Reference Guide

Connecting iPad to Wi-Fi

Overview

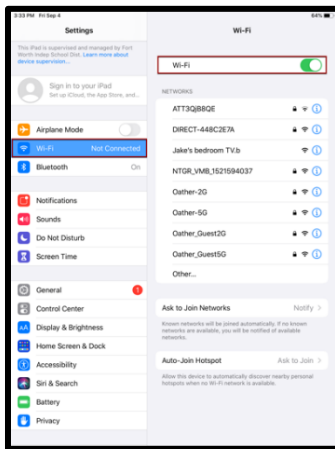

You can connect your District issued iPad to Wi-Fi or a hotspot using these directions.

Connect iPad to Wi-Fi Network

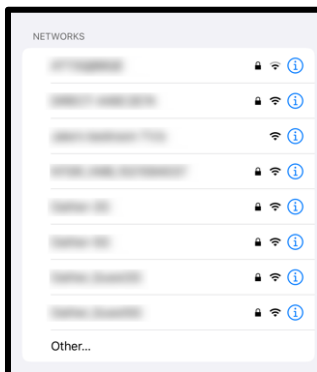

1. Click on the **Settings** icon.

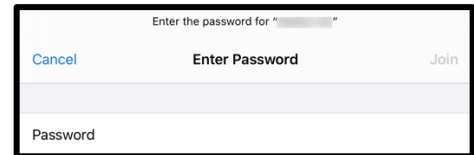

2. Select **Wi-Fi** from the choices on the left. Turn on Wi-Fi by toggling the Wi-Fi button to the on position. When Wi-Fi is On, the toggle should be green.

3. Select your **Network** from the list provided.

4. If prompted, **Enter Password** for that network.

Note: If you are using a District issued hotspot, you can find directions for connecting to the hotspot and information about the password for a hotspot here: <https://www.fwisd.org/Page/24272>

5. Click **Join**. When you are connected to the network you will see the network listed under Wi-Fi. You will also see the Wi-Fi symbol in the top right corner.
